

Mayor's Report to Council  
Village of Buckeye Lake  
March 12, 2018

1. Interviewed several candidates for Clerk Treasurer and Office Clerk position.
2. Discussed Code Enforcement with Whitehall's Property Code Enforcement Officer. We're looking into a software program called ZonePro that tracks the activity and management of code enforcement.
3. Received three inquiries regarding renting out the drive-thru building as a new business --- a new Drive-thru business. One of those prospects met with me today. Council needs to advise Mayor of lease terms that they will approve, i.e., monthly rent and time period.
4. Contacted Administrator Jack Pryor of Licking County Building Codes regarding services that could be offered for our commercial buildings and how that differs from the current services offered by the State of Ohio.
5. Reviewed the final application for TAP grant to replace the two bridges at the traffic light with one bridge. That was a meeting with ADR, Water Supervisor Toby Miller and Special Projects Manager Charlie Prince.
6. Joined a pool of governmental entities with attorney Mark Stemm to intervene in OPEC-HC court petition to appoint a Receiver. This issue was to protect ourselves from assessments stemming from the receivership and to ensure that payment of medical claims has first priority.
7. We acquired an estimated \$40,000 worth of free office cubicles, desks, files and other items for a total cost of \$30 plus the cost of truck rental to transport the items to our village office. Thanks to Resident Doug Stewart for helping Toby, Randy, Tommy and Mike unload the items.
8. Interim Clerk Chris Kerby was in the office most of the day on Saturday, March 10 paying bills and working on our finances.

Respectfully Submitted,

A handwritten signature in black ink that reads "Peggy A. Wells". The signature is written in a cursive style with a large, looped initial "P".
