

Mayor's Report
Buckeye Lake Village
February 28, 2022

1. Attended Webinar with BLRC regarding the water quality around the lake. BLRC has agreed to work with Buckeye Lake for Tomorrow on moving forward with special aeration systems in several parts of the lake where the geese are dropping toxic waste into the lake possibly creating an unsanitary water area.

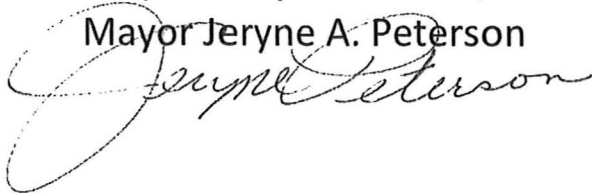

2. No information on when the Genesis Family Practice will start working on the inside of the unit(s) they have leased. They do plan on providing a small lab for blood draws and maybe other testing but not real clear on this at this time. They will be hiring and will have a need for all health care personnel.

3. No solid information on the Rittberger market at this time.

4. In your packet I have provided you with the copy of the Regional Listening Session: Intel Announcement. Presented by: Mid-Ohio Regional Planning Commission & Licking County Planning & Development. Located in the back of the power point is a brief survey. If you would take a minute and complete the survey, I will be very happy to turn these into MORPC for you.

Respectfully submitted,

Mayor Jeryne A. Peterson

A handwritten signature in cursive script that reads "Jeryne Peterson". The signature is written in black ink and is positioned below the printed name of the Mayor.
