PROJECT JUSTIFICATION

A statement of project justification is an explanation of why the project is necessary. The applicant should take great care in explaining this need. After we review your application, you will receive our comments and a questionnaire which also explains our priority considerations.

**PROJECT JUSTIFICATION:**

Buckeye Lake Village is protected from the lake by a 5 mile dam on the North and West banks. The lake is good for boating and fishing but there is no public swimming or boat launching area on the Buckeye Lake side, thus we need to develop Ryan Park.

There are many children in Buckeye Lake Village that have great need of play areas. Many of these children are of low income families, handicapped and retired people that need a local place for relaxing and entertainment. This Ryan Park is away from busy highways and next door to a Youth association Building and playground. The Boy scouts use this building for their meetings on Thursday throughout the year and there is a program of parties and dances for children of all ages plus a summer program of crafts and recreation with free lunch for the children.

Our Ryan Park has some basic essentials for starting a park. We have:

- 1-Backstop for a ball diamond
- 2-A basketball paved court
- 3-a fairly good parking Lot
- 4-A fence separating the park from a Mobile Home Park and residential area
- 5-An open shelter house
- 6-A well but no pump yet.

To make Ryan Park more useful, we need:

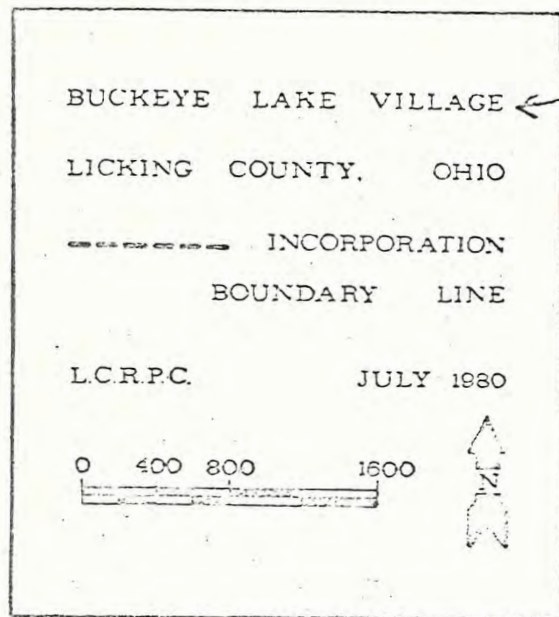

Drainage, so more of the field can be used and the park can be used sooner after a rainy spell.

- 2-We need picnic tables for our shelter house, a pump for our well, toilet facilities and storage for small game equipment, park tools and mowers.
- 3-We need playground equipment for very small children and a fence to isolate them from the larger children to minimize the possibility of them being hurt.
- 4-We need horse shoe courts, Volley ball courts, Croquet courts and Tether ball poles.

Our Village was incorporated July 9, 1980. That fall a 6 member Council, a Clerk and a Treasurer and a Mayor were elected under State of

PROJECT JUSTIFICATION:

Ohio Revised Code. Tax monies came in slow the first year. Our Park money comes from our general fund, mainly property tax. This year over \$14,000 has been budgeted to improve Ryan Park.

At this time there is no park area completed for our small children. Our children, Youth and adults need a wholesome outdoor recreation area. We have many retired adults who might enjoy shuffle board, horse shoe, croquet or possibly just sit and watch the children play.

Every community needs a park and recreation area. Our Village people are no different and it is wonderful to have Ryan Park Started. With your help Buckeye Lake Village people will have better park equipment in the future. We certainly thank you for your consideration of helping Buckeye Lake Village develop its park land.

**ACKNOWLEDGEMENT OF COMPLIANCE**

Upon acceptance of Ryan Park Improvements as a  
(Project Title)

federally assisted project, the applicant agrees to the following requirements of the U.S. Department of the Interior:

1. All new and/or replacement utility lines within the project boundaries will be placed underground.
2. Section 6 (f) of the federal Land & Water Conservation Fund Act requires that the project area be perpetually operated and maintained solely for public outdoor recreation. The area cannot be converted in use or title without prior approval of the Secretary of the U.S. Department of the Interior.
3. A Land and Water Conservation Fund symbol will be placed at the site as required below.
4. The area will be open to the general public. Differences in admission and other fees may be maintained on the basis of residence. However, these differences must be reasonable and discrimination on this basis is prohibited.

**LWCF SIGN REQUIREMENTS  
LAND AND WATER CONSERVATION FUND SYMBOL**

1. *Reason for Use.* Suitable public acknowledgement of Land and Water Conservation Fund assistance at project sites is required by the U.S. Department of the Interior. Such acknowledgement will emphasize the federal-state-local partnership in creating new high-quality outdoor recreation areas and facilities.
2. *Use of Symbol.* The symbol shown below can be used at entrances to outdoor recreation sites, at other appropriate on-site locations, and in folders and park literature. The symbol format may not be altered. Signs must not be smaller than 9 by 12 inches. Signs must be placed at the site when a development project is started and when an acquisition project is completed. Such considerations as color combinations, method of sign construction, and placement are matters for determination by the recipient; however, the signs must be permanent.
3. *Allowable Cost.* Cost related to these signs may be added to the project and will be reimbursed. Replacement costs are not allowable.

## Environmental Assessment

The environmental impact of the Ryan Park Improvement will be positive. The land 5 years ago was unused agriculture land grown up in weeds. The land had corn planted on it last because the cultivating ridges were still there, thus the small field was extremely rough for mowing and playing games.

With a Federal C.D.B.G. through the Licking County Commissioners and the Licking County Planning Commission before we were incorporated the following developments were planned and completed in 1981:

- 1- A chain link fence separating the Park land from a Mobile Home Park and other residential areas.
- 2-A well ( No pump yet)
- 3-A ball diamond backstop.
- 4-A large paved basketball court.
- 5-An open shelter house and a flag pole that was donated.

The Park land abuts the overflow creek or waste weir from the overflow dam of Buckeye Lake. Some of the park land is very wet. There is some old tile that empties into the creek but are evidently plugged from years of use so the land must be tiled again. We have filled some low places and developed grassed waterways to control erosion as much as possible.

This is a wonderful location for a Park. It is centered nicely in our village of 2771 people (1982 July 1 census adjustment) It is adjacent to a youth center building and playground which is used by many-children children and families. The two parcels of land complement one another as play and recreational areas.

The Agriculture department of the United States has a motto of (Every Acre for its best use). This land is being improved for its best use. The land is flat and a row of trees along the stream makes a good wind break. After the park is tiled and developed as needed the community will be much improved.

Re: Application for Financial Assistance for the Ryan Park Improvement

Dear Mr. Slater:

The Licking County Health Department has reviewed the above-stated preliminary application which you will be submitting to the Ohio Department of Natural Resources.

You have stated in the project justification section the need to complete the development of the water supply and to construct toilet facilities. Please contact this office prior to any construction in order to obtain plan approval and permits to install.

Good luck with your project.

Sincerely,
